

We at Merivaara design innovative solutions to help healthcare professionals to take care of the patients to live better lives.

For more than 120 years, the company's values have been uncompromising quality, simplicity, and learning from the user experience and from each other.

We are proud to apply the same values today.

Rapido	48–53

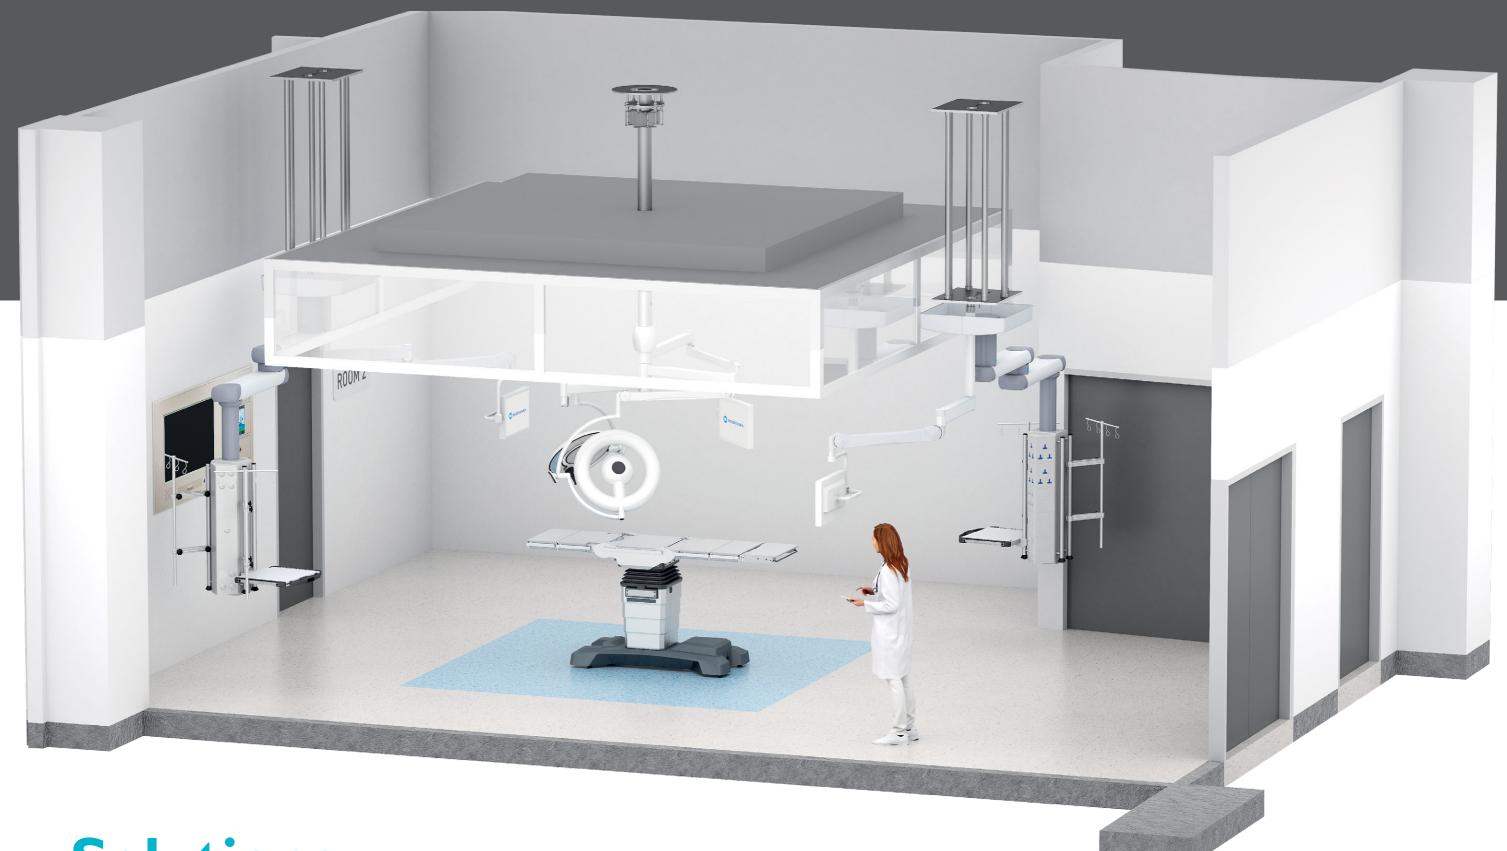

We are proud that the company's values 120 years ago were so ahead of their time that they can still today be fully applied when designing new innovative solutions for healthcare professionals. This is demonstrated by our latest award-winning products, the Q-Flow surgical light and the Smarter Practico operating table with functionality and ease of use at the heart of the design. Our user interfaces are developed together with hospital personnel so that all our products and systems can be used intuitively.

We call this Fluent Usability; operating room teams can focus on patient care, not the management of complex technologies. Top surgeons appreciate this all over the world.

4

# **Solutions**

Merivaara Solutions offer operating rooms a wide range of high-quality products, systems and services. Our solutions not only guarantee patient safety, but also provide healthcare operators with the best value for money.

When designing our solutions around the entire surgical team, it is important for us to listen to the customer's needs. This allows us to ensure that the team can implement the procedures safely, quickly and reliably. At the same time, workflow is optimized and the productivity of the entire team will increase.

Merivaara has lots of experience leading and implementing projects in operating rooms. For us, keeping projects to schedule and reducing costs is extremely important.

 $^{\prime}$ 

# **Grand Promerix** for demanding workflow

# Powerful and smooth, the Grand Promerix is a heavy-duty, yet versatile operating table for all kind of surgical procedures. Re-thought details help you to work more fluently. Excellent for bariatric surgeries. MERIVAARA

# Highlights

Improved ergonomic design improves the comfort of the whole surgical team. Comfort leads to concentration. confidence and better co-operation.

# Benefits of the Grand Promerix

### I. IMPROVED ERGONOMICS

Grand Promerix has lots of improved details for better ergonomics, for example, hidden, smaller castors and a curved cutout for increased foot space. Human-centric design

### 2. C-ARM ACCESS

The renewed slim base gives you perfect C-arm access. The Grand Promerix is designed to meet the highest standards in the operating room.

### 3. INCREASED HYGIENE

Details redesigned with patient safety in mind. New bellows & seat section, among other improvements, make Grand Promerix hygienic and easy to clean.

### 4. FLUENT LOCK™

Our Fluent locking system is both user-friendly and reliable. Connect with one click.

# TRAUMA ORTHOPAEDICS

Grand Promerix is the flexible solution for any operating room performing orthopaedic procedures. With the FLEXION orthopaedic extension device patient positioning has never been so easy. Full C-arm access.

66 Setting up Flexion is as easy as one, two, three...

# **APPLICATION EXAMPLES:**

- Hip arthroscopy
- Total hip replacement
- Lower extremity procedures: tibia nailing, femur nailing
- Hand surgery

# ORTHOPAEDIC SHOULDER SURGERY

The flexible solution for any operating room performing arthroscopic procedures. The back section cut out is big enough for a full view of the upper back and to move the patient's arm. On the other hand, it gives a proper support for the patient.

LARGE BACK SECTION CUTOUT allows shoulder and arm movements during operation.

**BACK SECTION CUTOUT** can be released easily and quickly.

- Rotator Cuff repair
- Bankart repair
- Slap Lesion repair
- Total Shoulder replacement
- Clavicle repair
- Reverse Total Shoulder replacement

PROGRAMMABLE MEMORY POSITIONS

allows you to go back to original surgery position after the table has been zeroed for imaging.

# SPECIAL ACCESSORIES

# **FEMORAL COUNTER TRACTION POST** 519512

Femoral counter traction post for lateral position with height adjustment with Flexion.

# **SPECIAL ROTEXSHOE® TRACTION BOOTS**

Stability and flexibility are not always mutually exclusive, but rather properties which are of major importance, particularly in the medical field. They guarantee safe and individual patient treatment, expanding surgical possibilities. The Special RotexShoe Traction boots offer all of that, and easy handling makes your work easier.

# **SPECIAL ACCESSORIES**

# **BEACH** CHAIR **SUPPORT BELT 20127**

To support the patient in Beach Chair during operation.

# **BEACH CHAIR HELMET HEAD REST** 30128 Multi directional helmet with forehead strap, to be used for shoulder operations with Beach Chair back rest.

# GYNAECOLOGY AND UROLOGY

Grand Promerix for gynaecology and urology is the flexible solution for any operating room performing gynecological and urological procedures. The high SWL, sliding function and great C-arm access make fluoroscopy of the pelvic area possible.

# **GREAT ACCESS FOR THE SURGEON AND ANAESTHETIST** Due to the new redesigned frame structure and well-designed table adjustments, surgeon and anaesthetist get close access to the patient. TWO LIGHTWEIGHT **SECTIONS AVAILABLE**

# **APPLICATION EXAMPLES:**

- Endometriosis surgery
- Surgery for depression of uterus and vaginal walls
- Uterine scraping

- Treatment of uterine muscle tumors (myoma treatment)
- Hysterectomy
- Hydronephrosis

- Prostate laser surgery
- Scrotum surgery
- Seed Removal (Sperm)
- Bladder Vision (Cystoscopy)

# **NEURO SURGERY**

Grand Promerix is a flexible solution for all neurological operating rooms performing delicate procedures. Thanks to the safe and modular design, it is ergonomically designed for the patient and surgical team. The design creates an environment for optimum imaging. The attachment of multiple neurological accessories is made easy due to Merivaara Fluent lock™ system.

# SAFE AND EASY POSITIONING

Different surgical accessories can be used for neuro and spine surgery with Grand Promerix. Reverse positioning is possible for different needs.

### **HEAD REST ADAPTER 60146**

Compatible with all Doro neurological products. Can easily be mounted to both Grand Promerix and Smarter Practico.

# **APPLICATION EXAMPLES:**

- Laminectomy
- Discectomy
- Spinal Fusion
- Vertebroplasty / Kyphoplasty

# SPECIAL ACCESSORIES

# LIGHT MOTORIZED **LEG SECTION 60204** Light leg section improves work ergonomics of the OR personnel. It is very light and easy to handle. The lightweight leg section attaches to the operating table via a Fluent locking mechanism removing the need to lean over the table when attaching and removing.

# **SPECIAL ACCESSORIES**

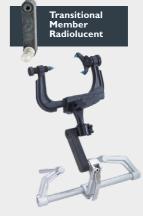

**DORO ALUMINIUM HEAD REST SYSTEM** 

**DORO CERVICAL** SPINE HEADREST **SYSTEM** 

**DORO CERVICAL** SPINE HEADREST **SYSTEM** 

**DORO CRANIAL** SPINE HEADREST SYSTEM

# SPINAL SURGERY

Grand Promerix is a flexible solution for all surgical operating rooms when performing spinal surgical procedures thanks to its safe and fluent design. It is ergonomically designed for the patient and surgical team. The fluent design creates an environment for optimum imaging. Attachment of carbon fibre sections is easy thanks to our Fluent lock system.

# **STABLE PLATFORMS FOR BOTH NEUTRAL** AND FLEXED POSITIONS

Perfect solutions for cervical, lumbar, laminectomies, decompressions, thoracic surgical spinal prone procedures.

Spinal Floating System

### **APPLICATION EXAMPLES:**

- Laminectomy
- Discectomy

- Spinal Fusion
- Vertebroplasty / Kyphoplasty

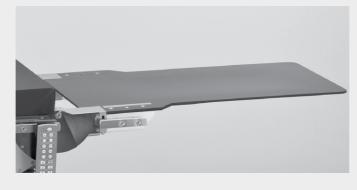

# **SPECIAL ACCESSORIES**

**CS PRONE HEAD SUPPORT SYSTEM** 

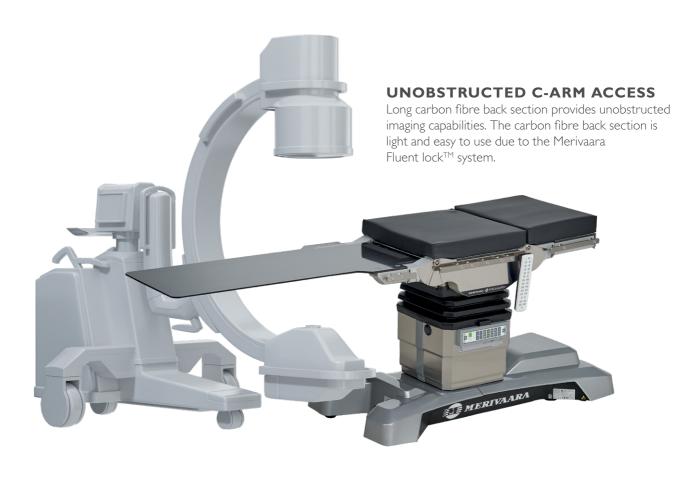

**CS PRONE FACE CUSHION** 

**CF-BACKREST 60502** 

# THORACIC AND CARDIOVASCULAR SURGERY

Grand Promerix for Thoracic and Cardiovascular Surgery is the flexible solution for any operating room performing cardiovascular procedures. The long carbon fibre back section ensures high quality imaging.

### **APPLICATION EXAMPLES:**

- Angioplasty
- Heart valve surgery

- Catheter ablation
- Stent placement

# **SPECIAL ACCESSORIES**

**HEAD REST 60142** 

**HIGH PRESSURE LAMINATE** (HPL) ARM REST 60510

# **PROCTOLOGY**

The specialized accessories allows for the safe positioning of the patient, while also creating the access required for both the surgeon and the scrub nurse.

# **APPLICATION EXAMPLES:**

- Colectomy
- lleo / colostomy • Strictureplasty
- Hemorrhoidectomy

66 Wide range of accessories for various applications in our Accessory Catalogue.

# **SPECIAL ACCESSORIES**

# PAEDIATRIC SURGERY

The tabletop is specially designed for paediatric use and gives close access for the surgeon when operating on small patients. This enhances the ergonomics of the operating room team. It also offers excellent C-arm access without obstruction of a support leg.

# **CLOSE ACCESS FOR PAEDIATRIC OPERATIONS**

The paediatric section is designed for children's surgery. The table top is narrower than other sections enabling surgeons and the health care team to get closer to the patient. Max patient weight is 40 kg. Includes 80 mm thick antistatic and viscoelastic mattress.

K-TEK 250 **STIRRUP PAIR** 12814

# **KIDNEY SURGERY**

Grand Promerix for kidney surgery is the simple and flexible solution for operating rooms.

The integrated kidney-bridge elevator system helps to adjust the patient to the desired position with ease.

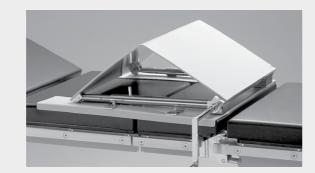

# **APPLICATION EXAMPLES:**

- Lung cancer surgery
- Lung volume reduction surgeryOesophageal surgery
- Partial nephrectomy or nephron-sparing surgery
- Percutaneous nephrolithotomy / nephrolithotripsy (tunnel surgery)

# **SPECIAL ACCESSORIES**

KIDNEY AND THORAX HEAD REST 60147

**BACK AND KIDNEY ELEVATOR 19280** 

# BARIATRIC SURGERY

The flexible solution for any operating room performing MIS procedures. With its high SWL, sliding-function, and versatile positioning, Grand Promerix is a safe and ergonomic solution for both the patient and the surgical

# **Smarter Practico** Operate high & low

# MERIVAARA 🐠 PRACTICO" MERIVAARA 🔯 PRACTICO FENNIAprize 20 Designed to improve ergonomics with the industry's widest range of posture possibilities. Powered by smart controls HONOURABLE MENTION that help you work more fluently. MERIVAARA

# Highlights

Improved features let you focus on the task at hand while superior ergonomic design improves the comfort of the surgical team. Comfort leads to concentration, confidence and better co-operation. That's efficiency.

# Benefits of the Smarter Practico

### I. ENHANCED ERGONOMICS

- Multiple Column Height Choices: General, Low, High
- Surgical Application Adaptability easily adaptable to multiple surgical applications
- Ergonimically focused for both the sugical team and the patient

### 2. SAFE & STRONG

- Up to 280 kg in all directions including slide
- Suitable for bariatric surgery with a vast range of
- Lifitng capacity 460 kg

### 3. FLUENT ACCESSABILITY

- The low height of the base allows 360 degree
- The curved base design allows for the surgeon to gain closer access to the patient.
- 390 mm longitudinal slide allows for more C-arm accessibility making X-Ray and Fluoroscopic imaging possible

# 4. SMART HAND CONTROL

- Easy-to-use interface
- Fluent design and comfortable to hold
- Quick memory functions
- Endoscopic mode ensures safe and easy use in a low light environment
- Convinient battery health indicator

### **5. SMART MOVEMENTS**

- The smart control system of the table recognises potential mechanical collision situations.
- Multiple anti-collision adjustments, e.g. during deep Trendelenburg.
- Control system automatically performs correct compensative movements to allow for safe and smooth adjustments.

# **ELECTIVE ORTHOPAEDIC SURGERIES**

Smarter Practico for elective orthopaedics is the flexible solution for any operating room. Thanks to its extensive height adjustment range, Smarter Practico is the ergonomic solution for the OR.

### **HIP SURGERY**

Hip surgeryKnee surgery

Hand surgery

• Foot and ankle surgery

• Femur / tibia surgery

• Elbow / humerus surgery

The adaptable heights improve ergonomics for short and tall personnel whether standing or sitting.

**APPLICATION EXAMPLES:** 

### **LOWER EXTREMITIES**

Together with orthopaedic extension solutions, Smarter Practico fufills the demands of today's OR.

### **KNEE SURGERY**

The Max Hi Smarter Practico is ergonomically designed for tall personnel. The fluent base is designed to allow for non-obstructive and closer access to the surgical field.

# ORTHOPAEDIC SHOULDER SURGERIES

The Smarter Practico for orthopaedics is the flexible solution for any operating room performing shoulder procedures. The beach chair section allows for easy access to the surgical field. Smarter Practico offers an extensive height adjustment range creating the perfect ergonomic solution in the OR.

**FULL ACCESS TO THE SHOULDER AREA** 

Large cutout of the beach chair provides excellent surgical access.

**EXCEPTIONAL PATIENT POSITIONING** 

Fluent movement is ensured because of the Smarter Practico's smart control system.

The back section cutout allows for a greater access to the shoulder area and for improved patient arm movements.

SECURED POSITIONING

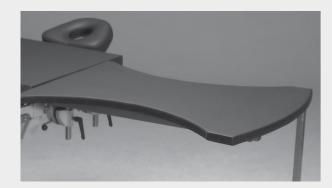

The beach chair support belt ensures the safe positioning of the patient without obstructing the surgical area.

**USER FRIENDLY** 

Smart and smooth locking mechanism enables the quick release of the removable back section cutout.

### **LOWEST ON THE MARKET**

Smarter Practico's ultimate low height of 540 mm makes it the perfect choice in the OR. Merivaara offers a vast range of ophthalmic head sections ensuring close proximity to the operating area. The streamlined base ensures the optimal foot space for the surgeon.

# **APPLICATION EXAMPLES:**

- Cataract surgery
- Glaucoma surgery
- Refractive surgery
- Corneal surgery
- Vitreo-retinal surgeryExtraocular muscle surgery
- Oculoplastic surgery

More support for

# EAR, NOSE AND THROAT SURGERY

Smarter Practico's Max Low can also be utilised for ENT surgical procedures.

# SPECIAL EYE-ENT BACK SECTION AND HEAD REST

- Allows for closer proximity to the patient
- Ergonomic for both the patient and end user
- Ensures stability
- ENT head rests offer excellent articulation

# **APPLICATION EXAMPLES:**

- Tonsilectomy
- Ear surgery
- ENT oncology
- Functional endoscopic sinus
- Septoplasty
- Rhinoplasty

# **SPECIAL ACCESSORIES**

**ARM REST 125** 

**ENT-SURGERY HEAD REST 18143** 

# **SPECIAL ACCESSORIES**

ENT-OPHTHALMOLOGY HEAD REST 18150

Smarter Practico for plastics is the flexible solution for any operating room performing plastic surgery. Thanks to the extensive height adjustment range, Smarter Practico is suitable for personnel of all heights.

# The table is easily reachable for the patients and gives excellent ergonomics for the surgeons while seated FLUENT ACCESSIBILITY New design gives more room for surgeon's legs

# **APPLICATION EXAMPLES:**

- Breast enhancement: augmentation, lift, reduction, reconstruction
- Facial contouring: rhinoplasty, chin, or cheek enhancement
- Facial rejuvenation: facelift, eyelid lift, neck lift, brow lift
- Body contouring: tummy tuck, liposuction, gynecomastia treatment
- Scar revision surgery

# **GYNAECOLOGY AND UROLOGY**

Smarter Practico is the flexible solution for any operating room performing gynecological and urological procedures. Thanks to the extensive height adjustment range, Smarter Practico is suitable for personnel of all heights.

**SURGEON** 

### **GYNECOLOGICAL SURGERY**

# EXCELLENT ACCESS AND QUICK RE-POSITIONING

Due to the extensive height adjustment, Smarter Practico is the ergonomic solution for all gynecological applications. The quick memory function makes the re-positioning easy.

# UNCOMPROMISED ACCESS FOR THE

Thanks to the slide function the table top can be slided toward the surgeon allowing for more ergonomic access to the operating field.

**UROLOGICAL SURGERY** 

### **UNOBSTRUCTIVE IMAGING**

The extensive slide function allows for easier access for imaging equipment.

"Surgeon's access is excellent. Longitudinal slide is a very good option in gynaecological and urological procedures.

Erkki Riihinen, Operating Room Technician

# APPLICATION EXAMPLES:

- Endometriosis surgery
- Surgery for depression of uterus and vaginal walls
- Uterine scraping

- Treatment of uterine muscle tumors (myoma treatment)
- Hysterectomy
- Hydroponic removal
- Prostate laser surgery
- Scrotum surgery
- Seed Removal (Sperm)
- Bladder Vision (Cystoscopy)

# Practico Manual Surgical operating table

The Practico Manual is a versatile manually operated table that enables a wide range of configurations for all types of surgical disciplines. The Practico Manual is designed to accommodate various patient weights thanks to a lifting capacity of 400kg and a SWL of 180kg. The unique base design allows for closer access to the operating field whilst reducing lower back fatigue for the surgical team. The stainless steel table top design makes the table suitable for demanding climate conditions.

# Highlights

# Benefits of the Practico Manual

### I. FLUENT ACCESS

The unique base design allows for closer access to the operating field.

### 2. VERSATILE

Practico Manual can be configured to adapt to many surgical applications thanks to its semi-modular design.

# 3. QUICK AND EASY

Practico Manual can be set up quickly even in the most challenging environments.

### 4. COMPATIBLE

Suitable for use with all Merivaara accessories when you see this symbol.

# 5. READY FOR ALL ENVIRONMENTAL CHALLENGES

The design of the stainless steel table makes the table suitable also for demanding climate conditions.

 $\frac{1}{2}$ 

# Patient positioning

Lateral positioning with kidney elevator for kidney/thoracic surgery.

Lateral positioning with manual flex without kidney elevator.

Lithotomy positioning for gynaecological and urology surgical applications.

Reverse mode

Supine positioning

Fowler positioning with divided leg sections for laparoscopic and bariatric surgery.

Orthopaedic extension device 19300 for lower extremeties. Can also be used for elective surgery.

# Rapido Versatile and functional

# Highlights

# Benefits of the Rapido

### I. FLUENT ACCESSIBILITY

• The unique table design allows for closer access to the operating field.

### 2. PATIENT SAFETY

• Patient safety rails during transport

### 3. EASY TO USE

- Fluent manoeuvrability
- Easy configuration
- Light weight sections
- Small base footprint allows for effective space saving

### 4. ECONOMIC EFFICIENCY

Reduces purchasing costs

### **RAPIDO STANDARD**

Rapido is the ideal operating surgical table/trolley for the busy day surgery unit. It is lightweight, easy to use and easy to clean. The Rapido reduces manual handling and improves efficiency in the operating room and ward. The open design ensures optimum surgical access and easy use of x-ray and other imaging equipment.

A comprehesive range of accessories are available to enable you to undertake a wide range of day surgery and minor surgical procedures. C-arm access is quick and easy with the Rapido making it ideal for use by the Endoscopy department.

### **RAPIDO FOR UPPER BODY PROCEDURES**

Rapido Upper Body operating surgical table/trolley is designed for various upper body surgical procedures. This model has improved access to the patient's upper body, optimizing space for the surgeon's legs and feet.

Rapido Upper Body is especially designed for various types of surgeries, for example Thoracic, ENT, Gynaecology, Urology and hand & arm procedures. Adjustments of the table that the surgeon needs during the upper body operations are conveniently controlled from the head end of the table.

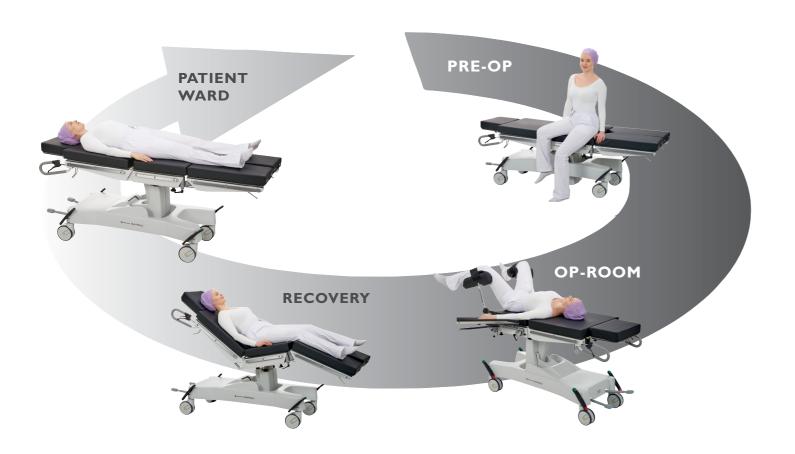

# Day Surgery Process with Rapido

A wide range of surgical procedures are now undertaken in Day Surgery. Fast and efficient Day Surgery eliminates the need for patients to stay in the hospital overnight greatly reducing operating costs. The Rapido is a patient trolley, operating table and recovery bed all in one unit. It reduces capital equipment and maintenance costs or the need for ward beds, saving valuable space in the pre-op and recovery wards.

### **PRE-OPERATIVE TREATMENT**

- Allows for a more relaxed pre-op patient-surgeon
- Patient is prepared for surgery without the need to be transferred to a surgical table

# Special accessories

Gyn/Uro extension 1000 18153

Light foot rest 1000 18001

X-ray cassette tray 1000 18126

Bowl (6 L) with drainage 100 201572 without drainage 100 201571

Wire utility basket for utilities 1000 18183

Oxygen bottle holder 5 L 1000 18189

Push bars to foot end 18168

Paper roll holder for Rapido 18572

Infusion rod 749, order no 1000 00749 Storage holder for infusion rod order no 1000 18578

### **SURGICAL PROCEDURES**

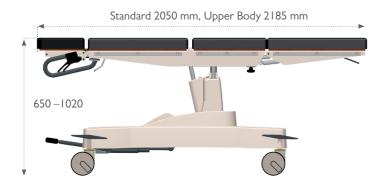

- Mobile Rapido table is easy to position in the operating room
- Fluent manoeuvrability
- Rapido is compatible with most side rail mounted
- The modular head rest can easily be removed to allow the anesthesia access to the patient's head during gynaecological and urological procedures

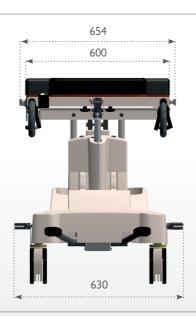

### **POST-OPERATIVE CARE**

- Patient can be transported directly to the post-op ward without the need for transfer to a bed
- Rapido is compact in size more trolleys fit in the recovery room than beds
- Allows the patient on the Rapido to recover before being transported to the hospital ward

A vast range of accessories can be found in the Merivaara Accessories catalogue.
